### To our Members:

If you have a request for transfer, please contact our Member Assistance/Contracts staff and we will try to accommodate your request. Please be aware that all transfers will be processed in a timely manner but we cannot promise an immediate move. We prefer to process any transfer from slip to slip or from one storage type to another in conjunction with either the expiration of your current Agreement or the beginning of every month. This will ensure a seamless transfer and avoid issues with billing for your storage. We appreciate your cooperation and hope to make your experience with us a "Pleasant" one.
